STUBBINS

“STUBBINS, a village in Bury parish, Lancashire; on the Manchester and Bacup railway, adjacent to Ramsbottom. It has a railway station, an Independent chapel of 1866, a large factory, print-works, and some good residences.” From John Marius Wilson's Imperial Gazetteer of England and Wales. 1870-72, “Stubbins – *Stub*, from Anglo-Saxon *styb*, means the root of a tree; *to stub*, is to root out stumps; and *ing* means a meadow. Stubbings, now Stubbins, therefore, signifies the *stubbed* or *cleared meadows* – meadow land cleared from forest growths”.

Chatterton Mill was built between 1777 and 1790 for fulling woollen cloth. The remains of Chatterton Mill were demolished towards the end of the 19th century and in 1923 its site was made into playing fields. By the end of the 19th century the rather old fashioned mill at Chatterton had been demolished, and the reservoir which lay to one side of it filled in.

Chatterton Playing Field - Peace Memorial. The plaque reads, "Chatterton Playing Field Peace Memorial. The land was generously given to Ramsbottom Urban District Council for public use and enjoyment and in thanksgiving for peace following the great war, by Lieutenant Colonel Austin T Porritt of The Cliff, Stubbins Vale 1923. It is the site of Chatterton Mill where the riot took place in 1826."

The playing fields were opened on 14th April 1923, having been laid out by Lt.Col. Austin Townsend Porritt.

SHUTTLEWORTH / WALMERSLEY

Is an extensive township on the east bank of the Irwell, extending from about two to five miles from Bury. It contains 5,065 acres, and its rateable value amounts to £85,921. The population in 1851 was 4,802 ; 1861, 5,298; 1871, 5,558 ; and 1881, 5,519. In Walmersley are the remains of a beacon, probably erected in the time of Queen Elizabeth, under the influence of the threatened invasion from the Spanish armada. On a neighbouring hill a prospect tower was erected by the Grants in 1829, and a better situation could scarcely have been found. In a clear atmosphere the estuary of the Mersey, near Runcorn, is seen from this elevated station.

SUMMERSEAT

It is a village situated in the three townships of Tottington Lower End, Elton, and Walmersley, and is a station on the East Lancashire line of railway, about 2 miles from Bury, and 1 mile from Ramsbottom.

The earliest reference to Summerseat is from 1556 when it was known as 'Summersett', meaning a hut or shelter used in summertime. Rowlands is an obscure name which may indicate that this area once belonged to a man called Rowland. In 1699, Edward Hamer, a fustian manufacturer from Tonge-within Bolton purchased the estate of Higher and Lower Summerseat. Soon afterwards he built Peel Hall, which is dated 1706 above one of the doorways.

The old tombstone originally placed here in 1709 was broken by a horse drawn plough. It was then renovated in July 1935. Though decaying with age and weatherworn, the original stone still displays its ‘horse cracks’, and is inscribed in that old delightful English lettering:-

“Here lies the body of Roger Worthington who departed this life the 9th day of July 1709, about the 30th year of his age. They that serve Christ in faith and love, shall ever reign with him above”.

The new stone is inscribed:-

“This stone commemorates the death and burial of Roger Worthington, a Baptist Preacher who ministered in the neighbourhood for many years.”
